OBJECTIVE

Identity & Access Management Expert with 7+ years of experience designing, implementing, and securing enterprise IAM, SSO, and Zero Trust architectures across cloud and on-premises environments.

Deep hands-on expertise in SailPoint IdentityIQ and Identity Security Cloud (ISC) - including custom connector & plugin development, IIQ-to-ISC migrations, RBAC/SoD implementation, and IGA platform modernization.

Proven expertise in ForgeRock/Ping AM Suite with OAuth2, OpenID Connect, SAML 2.0, SCIM, FIDO2/WebAuthn, adaptive authentication, MFA, RBAC, ABAC, Identity federation, lifecycle management, and password management.

Extensive experience leading IAM platform modernization, implementing authentication and authorization frameworks, and delivering highly available identity services supporting workforce, customer, partner, and machine identities.

Strong background in cloud security, platform engineering, automation, and enterprise architecture governance.

EDUCATION

Bachelor of Technology - Information Technology, Anna University 2015 - 2019

SKILLS

Product Expertise	SailPoint IIQ, ISC & FAM, ForgeRock/Ping IDM & AM Suite, Entra ID, Saviynt IGA, Ping Federate, Oracle OIM & OAM, Keycloak, Swivel Secure SSO
Industry Experience	Banking and Finance, Retail, Health, Defense, Investment Authorities, Telecom, Real Estate, Federal Authorities
Programming Languages	Java, Python, Groovy, JavaScript, TypeScript, Bean Shell, Shell script, PowerShell
Frameworks	Hibernate, Spring, React/Next JS, Angular, Bootstrap, Node JS, Webpack
Orchestration & DevOps	Ansible, Jenkins, Azure DevOps, Docker

EXPERIENCE

Tata Consultancy Services *Chennai, India*
IAM Developer May 2019 – Jan 2022

- Worked with several large financial institutions across Europe & North America.
- Built 14 custom SCIM 2.0/REST/SOAP connectors for legacy and non-standard applications.
- Managed approx 250k Identities & 200+ Application.
- Migrated from IdentityIQ 7.0 to 8.0.
- Integrating enterprise applications & solution through various OOTB & custom connectors.
- Hands on with JML, User Life Cycle Management Processes, Workflows, RBAC, Plugins, Java/JSP Programming, SoD, Single Sign on, Role Mining, Auditing, Custom Report Generation and Password Management.
- Implementing custom rules, forms, workflows, quicklinks and configuring the various types of access certifications.
- Troubleshooting complex technical issues while integrating applications.
- Implemented organization wide RBAC and various automations using IIQ.
- CyberArk PAM, RACF, OICS & Main Frame system integration with IIQ.

RNS Technology Services
Implementation Engineer - IAM

Dubai, United Arab Emirates

Feb 2022 – Feb 2023

- Worked for multiple banking & financial institutions across GCC countries.
- IIQ Installation, Upgrade and Migration from Other products.
- IdentityIQ to Identity Security Cloud Migration.
- Non-Employee Life Cycle Management.
- Integrated 200+ Application with RBAC within 1 Year
- BMC Remedy & Helix, ManageEngine ServiceDesk bi-directional ticketing system integration using Custom Integration Configuration
- SailPoint FAM Installation, Configuration, Upgrade & Integration with IdentityIQ.
- Developed Custom Connectors and Custom Frameworks for various customer requirements.
- Custom JSP/JSFs for handling file upload in IdentityIQ
- Built Java/Python Custom Frameworks and Utilities for various business requirements.
- Multi site & Multi Domain integrations via Cloud gateway.

Lead Implementation Engineer - IAM

Feb 2023 – Feb 2024

- Worked with Telecoms provider, Defense, Retail & Financial institution.
- Led the migration and implementation of Africa's largest Telecoms provider from ISAM/ISIM to SailPoint IIQ & ForgeRock Access Management Suite
- Integrated 100+ IIQ Applications & 100+ SSO integration in AM using SAML2.0, OAuth2.0, OIDC, Social Providers e.t.c
- Full fledged Life Cycle & Password management for Employees & Non-Employees using SailPoint IIQ & ForgeRock Access Management
- Multiple custom AM node development for various customer requirements and legacy application integration for SSO.

Senior Technical Consultant - IAM

Feb 2024 – Present

- Implementation of CIAM, MFA, Authorization Policies, Contextual Authentication.
- Designed, Architected, Deployed & managed 16 ForgeRock AM Suite instances in different countries for load balancing, seamless user experience to ensure zero downtime with effective load balancing.
- PasswordLess, Usernameless & Zero Click login implementation using FIDO2 & WebAuthN.
- ForgeRock AM & SailPoint IIQ Deployment, Configuration, Upgrade, Patching & Maintenance automation using Ansible.
- Implemented 15+ application using ForgeRock/Ping Web & Mobile SDKs. Built Custom mobile Authenticator apps with innovative UI & UX as per modern industry standards.
- Built custom bespoke UI for ForgeRock AM that acts the organizations front face with 100+ new modules & modern features that are not offered by AM's OOTB dashboard.
- Managed a team under myself for SailPoint & ForgeRock Projects.
- Designed and Implemented IAM system to govern 200k+ machine identities across 50k cloud and on-premises environments .
- Integrated 400+ enterprise, homegrown & SaaS application with PingAM & Entra ID using SAML2.0, OAuth2.0, OIDC & Custom adapter for legacy application.
- Developed a bespoke custom Identity Monitoring & Analytics application using NextJs, Python & PostgreSQL for real-time tracking and auditing.
- Developed a real-time IAM & SSO reporting & insights tool with interactive prompt/chat based input using agentic AI.

PERSONAL PROJECTS & COMMUNITY CONTRIBUTIONS

Announcement - IdentityIQ Plugin. This plugin can be used to display custom announcements on top of the Home Page. This one of the most requested feature by many client. This is one of the most downloaded/used community plugin.

This Plugin is published in SailPoint Developer Community ([Here](#))

Events Dashboard - IdentityIQ Plugin. This plugin provides a dashboard to visualize all IIQ events and allows exporting reports based on user defined filters. *(Version 2 is currently under SailPoint's review).*

This Plugin is published in SailPoint Developer Community ([Here](#))

Identity Details Tweaks - IdentityIQ Plugin. Allows tweaking Identity Details Page - Attribute, Access, Accounts & Passwords. Allows implementers to disable, hide few features & details that are not possible by OOTB customization

This Plugin is published in SailPoint Developer Community ([Here](#))

Custom Loading Spinner - IdentityIQ Plugin. Allows implementers to replace the OOTB loading spinner to customer logo or any image needed.

This Plugin is published in SailPoint Developer Community ([Here](#))

Launch QuickLink - IdentityIQ Plugin. Allows launching any of the existing QuickLinks (Custom & OOTB) directly with a URL. This provides one of the most requested feature by many customers and developers. *(This plugin is currently under SailPoint's review).*

Lysandra - REST API. A simple REST API built using Node.js and Express.js. Uses JSON files for persistence storage.

This tool can be used for learning Web-Services connector, It can be configure to serve a REST API from simple to Very complex where custom logics are required to handle the data.

This Tool is published in GitHub as open source ([Here](#))

CERTIFICATIONS & ACHIEVEMENTS

- SailPoint Certified IdentityIQ Engineer ([Here](#)).
- SailPoint Developer Community Ambassador ([Here](#)).
- SailPoint Identity Security Leader([Here](#)).
- Forgerock/PingAM Core.
- PingOne Advanced Identity Cloud: Access Management Advanced.
